

RITASH KOUL

A focused & goal-oriented professional, targeting assignments in **Software Development** with an organization of high repute'.

Mobile: +91-9797454878

E-Mail: riteshkoul30sep@gmail.com

Profile Summary

- **Senior Developer** with over **10 years of experience** in the field of **Software Development**.
- Experienced in **analyzing, designing & development of client/server, web & windows-based applications, API development in Microsoft Visual Studio .Net IDE using C#, WPF, WCF, Asp.Net/Asp.Net Core, Web APIs, and SQL Server**.
- **Skilled in analyzing information system needs, evaluating end-user requirements**, custom designing solutions, troubleshooting for complex information systems management.
- **Expertise in managing complete project management activities**, ensuring timely deliveries as per defined timelines and quality standards.
- **Proven track record of establishing cordial relationships with clients and technical teams** for successfully securing & executing multiple projects.
- **Drove business operations to outperform annual objectives**, acting as key driver for business process design and solution identification.
- **Ensure timely execution of projects; acted as escalation point to resolve issues for all support issues**, driving resolution of customer's technical support issues.
- **An effective communicator with strong relationship management skills** with the capability to relate to people at any level of business and management; possess excellent analytical and negotiation skills.

Core Competencies

Software Development Life Cycle
Agile Methodology/Safe Agile
System Integration Testing

Technical Architecture
Root Cause Analysis
Requirement Gathering

Unit Testing
Solution Optimization
Defect Management

IT Skills

Software Framework : .NET Framework, .NET Core
Microsoft Technologies : C#, WPF, ASP.NET/ASP.NET Core, WCF, Web APIs
Programming Languages : C#, T-SQL, Python
RDBMS : SQL Server
Development Tools : Visual Studio 2010/2013/2015/2019/2022, Azure DevOps Tools, TFS, Git
Office Tools : Microsoft Word, Microsoft Excel, Box

Work Experience

Since Oct '2022 with Addnode Group as a Lead Software Developer

Project Title: Map and Planning

Period: Oct' 22 – Till now

Technologies Used: C#, .NET Core, WPF, SQL, REST API's, ArcGIS Pro, Python

Description: Design and development of GIS based town planning tool

Role:

- Leading the team for the migration of old town planning tool based on ArcMap to ESRI's ArcGIS Pro
- Coordinated with project management teams to design data models, resulting in reduction in data retrieval times and improved analytics accuracy
- Developed and implemented multiple custom tools in WPF and Python for ArcGIS Pro; significantly boosted spatial data analysis capabilities, increasing project completion speed
- Collaborated with ESRI Sweden team to analyze and integrate new ArcGIS Pro features into GEOSECMA product.
- Designed and developed the APIs based on the 3rd party APIs and data models provided by **Lantmäteriet** (Sweden's government agency that provides information on Swedish geography and property) and integrated the same with our APIs.

Onsite Opportunity:

- Visited (January 2022-March 2022) for project work to Sweden (Karlskrona) in Addnode office.
- Attended (November 2024) **Esri European Developer Summit** in Berlin, Germany.

Dec'21 – Oct' 22 with Cognizant, Pune as a Senior Consultant**Project Title:** FK VSS Suite**Period:** Dec' 21 – Oct' 22**Technologies Used:** C#, .NET Core, WPF, SQL, Kafka, Mosquitto, Kubernetes, Docker, CI/CD**Description:** Design and development of Medical Device Registration part of VSS IOT Suite**Role:**

- Led the team responsible for the development of Device Registration of VSS Suite
- Achieved 100% consistency in a team of 4 members responsible for designing and development of microservices and background services based on Publish-Subscribe system for the Device Registration part of VSS Suite
- Strengthened POCs to set up DevOps environment deploying components like Kafka, PostgreSQL, Mosquitto, Prometheus, Grafana dashboards on the local Kubernetes cluster to support the DevOps team
- Worked in conjunction with Product Owners, Business Analysts and Quality Assurance to define deliverables and manage project timelines

Sep'21 – Nov' 21 with CoreView Systems, Pune as a Senior Software Engineer**Project Title:** EDCMS**Period:** Sep' 21 – Nov' 21**Technologies Used:** C#, .NET Core, WPF, SQL**Description:** Design and development of Electricity Customer Management Tool to track customer details, billing, and power**Role:**

- Developed an intuitive and responsive UI for Electricity Customer Management Tool using WPF and MVVM architecture.
- Developed background jobs for automated billing, meter reading processing and data synchronization.
- Integrated and consumed REST APIs for real time customer data retrieval, billing updates and service requests.

Mar'17 – Sep'21 with S&P Global, Gurgaon as a Senior Software Developer**Project Title:** Content Tool Suite (CTS) & Ratio Dissection Engine**Period:** Apr' 18 – Sep' 21**Technologies Used:** WPF, MVVM, C#, .NET Framework/.NET Core, SQL, Azure DevOps, Git, Web APIs, Kafka**Description:** Design and development of Desktop applications, APIs for collecting and calculating financial data.**Role:**

- Responsible for development and maintenance of various components of the company's transaction reporting system 'CTS'
- Designed and developed REST APIs for WPF/Web Applications used for calculating thousands of ratios
- Collaborated with Release Team to come up with CI/CD Azure Pipelines
- Responsible for the migration of REST APIs from .NET Framework to .NET Core
- Acted as a part of discussions like planning, iteration planning and refinement of user stories

Project Title: Transaction Data Pipeline**Period:** Apr' 17 – Mar' 18**Technologies Used:** Windows Service, C#, SQL, Kafka/Sonic**Description:** Design & development of a Pipeline Solution for migrating financial data.**Role:**

- Collaborated with the stakeholders for designing new data models
- Part of the team responsible for the development of Publish-Subscribe model-based automation system to process real time data updates from one application to another during company merger.
- Part of debugging & troubleshooting of any business-critical production issues with the stakeholders

Aug'14 – Mar'17 with Capgemini, Noida as a Software Developer

Project Title: NFOS (Nordic Front Office Situation)

Client: RSA Insurance Group

Period: Dec' 14 – Mar' 17

Technologies Used: WPF, C#, WCF, SQL

Role:

- Requirement gathering as well as estimation for the Change Requests.
- Managed writing different kinds of analysis, designs, testing and business documents
- Developing new user interfaces for the windows applications in WPF/XAML with MVVM pattern, creating and implementing logic with back-end processing.
- Debugging and troubleshooting of any business-critical production issues with the clients.
- Interacting with clients on calls and Webex meetings.

Education

- **B.E. in IT** from Thakur College of Engineering and Technology, Mumbai, University of Mumbai in **2014**; 64%
- **12th** from KNIT, Jammu, JKBOSE in **2010**; 76.27%
- **10th** from Vishwa Bharti Public Higher Secondary School, Jammu, JKBOSE in **2008**; 86.4%

Personal Details

Date of Birth: 30th September 1992

Languages Known: English, Hindi, and Kashmiri

Address: Punawale, Kate Wasti, Pimpri-Chinchwad, Pune, Maharashtra-411033
